

Technical Data Sheet

Pressure / Temperature / Humidity / Air Velocity / Airflow / Sound level

KISTOCK DATALOGGER HVAC range : KTH-CO

Temperature / Humidity / CO

KEY POINTS

- 20 000 measurement points
- 2 configurable setpoint alarms
- Fast data download (1000 values per seconds)
- IP40 housing
- Supplied with 1 m of silicone tube

TECHNICAL FEATURES

Displayed units	°C, °F, %RH, °Ctd, °Ftd, ppm		
Resolution	0.1°C, 0.1°F, 0.1%RH, 1 ppm		
Setpoint alarm	2 setpoint alarms on each channel		
Frequency of measurement	From 5 s to 24 h		
Working temperature	From -20 to +70 °C		
Storage temperature	From -40 to +85 °C		
Battery life	3 years (on the basis of 1 measurement each 15 minutes at 20°C)		

TECHNICAL FEATURE OF THE INTERNAL SENSOR

	Hygrometry	Temperature	CO2
Type of sensor	CMOS		NDIR
Measuring range	From 5 to 95 %RH	From -20 to +70 °C	From 0 to 5000 ppm
Accuracy	Accuracy** (Repetability, linearity, hysteresis) : $\pm 2\%$ RH (from 15°C to 25°C) Factory calibration uncertainty : ± 0.88 %HR Temperature dependence : $\pm 0.04 \times (T-20) \%$ RH (if T<15°C or T>25°C)	From-20 to 0°C : 2% of reading value ± 0.6 °C From 0 to 30 °C : ± 0.5 °C From 30 to 70 °C : 1.5% of reading value	±50 ppm +3% of reading value
Response time ($t_{_{63}}$)	50 s (Vair = 2 m/s)	25 s (V = 2 m/s)	 120 seconds (ambient use) 20 s in forced gas generation¹

*All accuracies indicated in this document were stated in laboratory conditions and can be guaranteed for measurements carried out in the

same conditions, or carried out with calibration compensation.
**As per NFX 15-113 standard and the charter 2000/2001 Hygrometers, GAL (Guaranteed Accuracy Limit) which has been calculated with a coverage factor value of 2 is ±2,88%RH between 18 and 28°C on the measuring range from 5 to 95%RH. Sensor drift is less than 1%RH/year. ¹ Please, refer to "Calibrate the datalogger" part

FEATURES OF HOUSING

Size 120 x 80 x 55 mm

Weight 250 g

Display 2 lines LCD screen Size : 45 x 28.5 mm

Control 2 buttons : Select and OK

Material ABS housing

Protection IP 40

PC communication 1 input for male Jack connector 3.5

Digital electronics Lacquer protected circuit board Meets RoHS standards

Battery power supply Type lithium 3.6 V

Visual alarm 2 electroluminescent diodes (green and red)

Environment Air and neutral gases

PC CONNECTION

RECORDER FUNCTIONS

Five recording modes

KISTOCK can record in five different ways :

• "Immediate" mode records values according a predefined interval.

• "Minimum", "Maximum" and "Average" record automatically the calculation of minimum, maximum and average of measured values during an interval recording.

• "Monitoring" mode allows to get an accurate history report during error events to help troubleshooting, without stopping the measurement logging. To proceed this way, you just have to define :

- a record interval to be used whilst the reading are beyond the setpoints

- a record interval for the values measured during each reading beyond the setpoints.

Furthermore, you can also let your KISTOCK record non-stop ("loop" recording option).

Four types of dataset start

Once your recording mode has been set, you can launch your dataset :

- With a delayed start (with predefined date and time)
- · With the software
- With push-button

• With "Online" option. In this case, your datasets are directly sent, saved and displayed on your PC in real time.

Six types of dataset stop

You can stop your dataset :

- · According to a date and time (if it was started the same way)
- According to a period
- · According to a predefined number of recording points
- Once the storage capacity is full
- With "Stop" option of the software
- By holding "**OK**" key for at least if this function has been previously activated by the software.

SIZE (in mm)

Input for Kistock-PC interface

Input for calibration gas

DISPLAY

SOFTWARE

- Configuration and data processing software **KILOG** software enables you to configure, save and process your data in a very simple way.
- <u>Software</u>.....Ref. KILOG-N

NOTE

<u>Complete set :</u> software + 1 interface...... Ref. KIC2 KILOG

• **KISTOCK-**PC interface This USB cable enables you to connect your KISTOCK to your PC.. *Ref. I-KIC2*

KILOG CFR software

KILOG CFR software is the key tool for users who requires traceability, in accordance with 21CFR-Part11 standards. Security and integrity of data are guaranteed : it is not possible to modify or tamper with the data.

- Interface
 Ref. I-KIC2
 Ref. VIC2 CEF
- <u>Complete kit :</u> KILOG 1CFR software + 1 interface...Ref. KIC2-CFR-N

Software is compatible with the former range of Kistock.

ACCESSORIES

• KNT data collector.

KNT data collector allows you to collect measurements from one or several KISTOCK directly on-site (up to 500,000 values stored). Data can be displayed and printed from the KNT or download to your PC. *Ref. KNT 310*

CALIBRATION

KISTOCK dataloggers can be supplied with calibration certificate as an option.

WARRANTY PERIOD

KISTOCK dataloggers have 1-year guarantee for any manufacturing defect (return to our After-Sales Service required).

CALIBRATE THE DATALOGGER

Calibration is performed by injecting some standard gas directly in the measuring chamber at the desired concentration.

This system is economical and allows to reduce the consumption of standard gas lower then 1.5 I (for the required measurement).

It is possible to calibrate the KTH-CO2 datalogger in CO₂ in order to get the more accurate

measurements possible. Follw this procedure for the calibration :

> Unscrew the screw on the right side of the datalogger.

 $\scriptstyle >$ Connect a bottle of CO $_{_2}$ standard gas on the pressure connection of the KTH-CO2 with the

supplied silicone tube.

> Generate a gas flow of 30l/h until the stability of the measurement.

With the Kilog software, if a variation is observed, it is possible to enter an offset to correct the measurement.

FIXATION

With its fixing system by wallmounting,, it is possible to transport or fix the Kistock KTH-CO2 easily.

EXPORT DEPARTMENT Tel : + 33. 1. 60. 06. 69. 25 - Fax : + 33. 1. 60. 06. 69. 29 e-mail : export@kimo.fr Distributed by :
