## Gas-Leak Detector

Compact gas-leak detecting instrument for monitoring gas pipe connections

**NEW!**

CH<sub>4</sub>

C<sub>3</sub>H<sub>8</sub>

## Application, details and accessories for testo 317-2

| Technical data            |   |   |
|---------------------------|---|---|
| Measuring range           | 0 to 20,000 ppm CH <sub>4</sub>         | 0 to 10,000 C <sub>3</sub> H <sub>8</sub> |
| Alarm thresholds          | 10,000 ppm CH <sub>4</sub>              | 5,000 C <sub>3</sub> H <sub>8</sub>       |
| Lower response thresholds | 100 ppm CH <sub>4</sub>                 | 50 C <sub>3</sub> H <sub>8</sub>          |
| Display                   | 8 segment bar graph trend display       |   |
| t <sub>90</sub>           | <5 s                                    |   |
| Warm-up time              | 60 s                                    |   |
| Battery type              | 2 batteries type micro AAA 1.5 V (LR03) |   |
| Audible emitter           | 85 dB(A)                                |   |
| Battery life              | 4 h (LR03)                              |   |
| Operating temp.           | -5 to +45 °C                            |   |
| Storage temp.             | -20 to +50 °C                           |   |

The Testo 317-2 is a compact gas leak detector which checks ambient levels of methane and propane. Display indicates gas level and audible alarm warns user of increasing gas concentrations. Ideal for use during installation and maintenance work on gas boilers.

### Special features:

- Easy to use: just one ON/OFF button
- Sensor self-test following switch-on
- Audible signal confirms 317-2 is ready for use
- Increasing visual and audible alarm with rising gas concentration
- Continuous sound if alarm threshold is exceeded
- Battery status indicated on display
